Quote #16

**Stephen Hawking**

“I believe **alien life** is quite **common** in the universe, although **intelligent life** is **less so**. Some say it has yet to appear on planet Earth.”

Stephen William Hawking (born Jan. 8<sup>th</sup>, 1942) is an **English theoretical physicist**, cosmologist, author and **Director of Research at the Centre for Theoretical Cosmology** within the **University of Cambridge**. His scientific works include a study co-authored with **Roger Penrose** on **gravitational singularity theorems in the framework of general relativity**, and the theoretical prediction that **black holes** emit radiation, often called '**Hawking radiation**'. Hawking was the first to put forth a theory of cosmology explained by a union of the general theory of relativity and quantum mechanics. He is a vigorous supporter of the **many-worlds interpretation of quantum mechanics**.
